14-18 MARCH 2022

QUATERNAIRE 13

**Palaeoclimate changes,
landscape evolution and human societies:
from sedimentary basins to industrial landscapes**

Palaeoclimate changes, landscape evolution and human societies: from sedimentary basins to industrial landscapes

The Institute Laboratoire Image Ville Environnement (LIVE - UMR 7362, CNRS, University of Strasbourg and École Nationale du Génie de l'Eau et de l'Environnement de Strasbourg) organizes on 14-18 March 2022 in Strasbourg the thirteenth AFEQ - CNF INQUA international conference: « Q13 - Paleoclimate changes, landscape evolution and human societies: from sedimentary basins to industrial landscapes ».

The conference will focus on:

- climate change and landscape evolution at the Quaternary timescale
- interactions between climate, environments and human populations
- impacts of human societies on landscapes and anthropization processes

Its objectives are to provide an overview of both novel research carried out in the various branches of the Quaternary, and advances in associated scientific methods (development, application). In addition, it will focus on regional-scale studies and approaches, with an opening towards modern - in particular urban - environments.

The Q13 meeting will have a strong international dimension, which reflects the strategic position of Strasbourg at the heart of Europe. In particular, scientific communities of bordering countries (Germany, Switzerland, Belgium, Luxembourg,...) are highly welcome to take part in this conference.

12 SESSIONS

1. Climate-controlled sedimentary systems and processes - how unique is the Quaternary?

Joint French and German organisation

Mathieu Schuster, Matthias Hinderer and Laura Stutenbecker

2. Deciphering landscape evolution from different angles: combining geochronology, quantitative geomorphology and modelling approaches

Joint German and French organisation

Melanie Bartz, Jan-Henrik Blöthe and Pierre Valla

3. Reconstruction of palaeoclimate and palaeoenvironments during the last glacial period: impact of millennial-timescale climate variations on Megafauna and Human societies

Charlotte Prud'homme, Amaelle Landais, Pierre-Henri Blard and Olivier Bignon-Lau

4. From one glacial to another: global climate dynamics and impact on continental environments during Quaternary interglacials

Julie Dabkowski, Loïc Lebreton and Franck Bassinot

5. First prehistoric settlements and Pleistocene paleoenvironments : adaptations, subsistence and migrations

Valentina Villa, Héloïse Koehler, Eslem Ben Arous and Frédéric Blaser

6. Uses and misuses of landscapes and resources: New perspectives on pioneer farming societies in the world

Alexa Dufraisse, Rose-Marie Arbogast, Émilie Gauthier, Philippe Lefranc and Grégor Marchand

7. Impacts of past agro-pastoral activities on the structure of landscapes

Salomé Granai, Dominique Schwartz, Julian Wiethold and Julie Morin-Rivat

8. Urban and industrial socio-ecosystems: from past to present, and future

Quentin Borderie, Laurent Lespez, Frédéric Gob and Manon Kohler

9. Space and time variability of millennial-scale crises during the Holocene : Local to regional climatic and environmental records, and cultural responses to rapid climate changes

Catherine Kuzucuoglu, Aline Garnier and Pascal Flohr

10. Active tectonics and earthquakes: their records in the geological, geomorphological and archeological archives

Stéphane Baize, Jean-François Ritz, Pierre Antoine, Laurence Audin and Klaus Reicherter

11. Human-nature interactions deduced from river mouth, coastal and marine records: Trends and short-term changes in a long-term perspective

Ferréol Salomon, Pierre Stéphane and Maria Fernanda Sánchez Goñi

12. Methodological advances in fluvial geomorphology and ecology to rivers management

Valentin Chardon, Jérémie Riquier and Alexandre Peeters

4 KEYNOTE SPEAKERS

Maria Fernanda Sánchez Goñi

President of AFEQ - CNF INQUA, École Pratique des Hautes Études (EPHE, PSL), UMR 5805 - EPOC, CNRS and University of Bordeaux (France)

Frank Preusser

President of DEUQUA, University of Freiburg (Germany)

Gert Verstraeten

Former president of BELQUA, Catholic University of Leuven (Belgium)

Pierre Antoine

Former president of AFEQ - CNF INQUA, CNRS, UMR 8591 LGP, University Paris 1, UPEC, Meudon (France)

2 WORKSHOPS ON FRIDAY 18 MARCH 2022

- Archaeology and palaeosismology, in collaboration with Failles actives France (FACT) Group of the ATS-RESIF (Action Transverse Sismicité _ Réseau sismologique et géodésique français) Consortium
- 12 000 years of palaeoenvironments and landscape archaeology in the Upper Rhine Graben and neighbouring regions

ORGANISATION

LABORATOIRE IMAGE VILLE ENVIRONNEMENT/UMR 7362, CNRS, UNIVERSITÉ DE STRASBOURG,
ÉCOLE NATIONALE DU GÉNIE DE L'EAU ET DE L'ENVIRONNEMENT DE STRASBOURG

Claire Rambeau

Faculté de Géographie et d'Aménagement de Strasbourg
claire.rambeau@live-cnrs.unistra.fr

Gilles Rixhon

École Nationale du Génie de l'Eau et de l'Environnement de Strasbourg
gilles.rixhon@live-cnrs.unistra.fr

Patrice Wuscher

Archéologie Alsace and University of Strasbourg
patrice.wuscher@archeologie.alsace

SCIENTIFIC COMMITTEE

Mathieu Schuster

CNRS, Institut Terre et Environnement de Strasbourg - UMR 7063, University of Strasbourg
Institute of Geography, University of Freiburg

Jan-Henrik Blöthe

Melanie Bartz

Institute of Earth Surface Dynamics, Faculty of Geosciences and the Environment,
University of Lausanne

Charlotte Prud'homme

Institute of Earth Surface Dynamics, Faculty of Geosciences and the Environment,
University of Lausanne

Julie Dabkowski

CNRS, Laboratoire de Géographie Physique - UMR 8591, Meudon

Valentina Villa

CNRS, CEPAM - UMR 7264, University Côte d'Azur

Alexa Dufraisse

CNRS, UMR 7209, AASPE CNRS, Muséum national d'Histoire naturelle, Paris

Salomé Granai

Géoarchéon, Laboratoire de Géographie Physique - UMR 8591, Meudon

Catherine Kuzucuoglu

CNRS, Laboratoire de Géographie Physique - UMR 8591, Meudon

Stéphane Baize

BERSSIN, Institut de Radioprotection et de Sécurité Nucléaire, Fontenay-aux-Roses

Ferréol Salomon

CNRS, Laboratoire Image Ville Environnement - UMR 7362, Strasbourg

Laurent Schmitt

University of Strasbourg, LIVE - UMR 7362, Strasbourg

Frank Preusser

Sedimentary Geology and Quaternary Research, University of Freiburg

Clément Féliu

Inrap, UMR 7044 - Archimède, CNRS and University of Strasbourg

Héloïse Koehler

Archéologie Alsace, UMR 7044 Archimède, CNRS and University of Strasbourg

Maria Fernanda Sanchez Goñi

École Pratique des Hautes Études, UMR 5806 - EPOC, CNRS and University of Bordeaux

Jérôme Van der Woerd

CNRS, Institut Terre et Environnement de Strasbourg - UMR 7063, CNRS and
University of Strasbourg

Amélie Vialet

Muséum national d'Histoire naturelle, UMR 7194, Paris

Eileen Eckmeier

Institut für Ökosystemforschung, University of Kiel

Magali Fabre

Antea, UMR 7044 - Archimède, CNRS and University of Strasbourg
